

AMBASSADORS LEARN A LOT - AND THEN HOW TO TEACH IT!

The 35 *'i sea, i care'* Ambassadors from schools in Dandenong, Keysborough and Noble Park recently participated in a peer teaching workshop. The workshops are designed to give Ambassadors the knowledge and skills to teach their peers, families and wider communities about why our marine environment is special.

It also looks at the impacts humans can have upon the ocean, and simple solutions toward reducing plastic consumption, as well as litter entering our waterways.

The students were brilliant, and many said this workshop really helped their self-confidence for public speaking, and of course it was a whole lot of fun...!

Thank you so much to Julie McCrimmon at Chandler Park PS and Em Emile Blake at Silverton PS for hosting, and the wonderful parents and teachers who gave up their time to bring the Ambassadors along to this amazing experience!

“NOT EVERYTHING THAT CAN BE COUNTED COUNTS. NOT EVERYTHING THAT COUNTS CAN BE COUNTED.”

— William Bruce Cameron, US author

The humpback whales are here ..! Excited whale watchers have sighted humpbacks along the coasts of the Mornington Peninsula and Phillip Island, and even off the shore in Mt. Eliza as they migrate from the Southern Ocean to spend the winter in the warmer northern waters!

Come and visit the Dolphin Research Institute team at the Phillip Island Whale Festival in Cowes July 5th-7th and see our amazing activities such as stepping inside our full size inflatable whale.

Learn about all things whale at the DRI educational stall, or join DRI research scientists on a Spot a Whale tour, where you can learn how to spot whales from the beautiful Cape Woolamai and Pyramid Rock lookouts!!
